Professional Summary:

Front-End Developer focused on building modern, responsive, and high-performance interfaces using React, Next.js, and TypeScript. Experienced in API integration, automated testing, and real-time application development. Seeking opportunities to grow in creating intuitive, high-quality user experiences.

Professional Experience:

Freelancer – Westpoint 03/2025 - 05/2025

- Developed modern, responsive, and accessible interfaces using React (Next.js), with a focus on user experience (UX).
- Integrated REST APIs ensuring efficient rendering and strong performance.
- Implemented end-to-end tests using Cypress to validate interface flows.
- Collaborated with designers using Figma to translate layouts into reusable components.

Technologies: Next, Figma, AWS, TypeScript, Mantine, Cypress

Academic Project:

Exchange of Currencies

Development of a real-time currency conversion platform between GBP and USD.

- Built an interactive interface for real-time currency conversion using Next.js and TypeScript.
- Implemented dynamic data updates via WebSockets, improving user experience.
- Structured reusable and strongly typed components, ensuring front-end scalability.
- Created interface tests using Vitest.
- Integrated external APIs for financial data consumption.

Technologies: Next.js, TypeScript, Vitest, WebSockets, REST APIs, JWT

Technical Skills:

- **Front-End:** React.js (Hooks, Componentization, State Management), TypeScript, HTML, CSS
- **Back-End:** Node.js, Express, MongoDB, SQL, REST APIs
- **Tools:** Git, GitHub, Postman, Figma, Cypress
- **Other:** Scrum, Jira, AWS, Linux
- **Languages:** English (Fluent)

Education:

Fiap (2024-2027)

Bachelor's Degree in Software Engineering

Fiap School (2021-2023)

Technical High School focused on Web Development
